

Paper Transporter Directions

Equipment:

- Each person has one, and only one, piece of paper - this piece of paper must be used for all three attempts.
- Each group has one rolling Orb.

Goal: Get as many points as possible in 60 seconds.

Directions:

- This activity is done while standing together in one circle.
- We are working together to move the Orb from person-to-person **AROUND OUR CIRCLE**.
- The Orb can only touch the papers as it travels around our circle.
- Each person is allowed to manipulate their paper in any way **BEFORE** a timed attempt.
- Your paper **MAY NOT** be torn.
- Every piece of paper the Orb touches as it goes **AROUND** the circle is a point. (Someone should keep track of points.)
- If the Orb touches **ANYTHING ELSE** as it is going around the circle, we will need to **MINUS 1 POINT** from our overall score. (One of us should keep track of touches.)
- **EXCEPTION:** One of us is allowed to drop the Orb into a Paper Transporter at the beginning of each timed attempt - no point is deducted
- If the Orb drops to the ground, one of us is allowed to pick it up and drop it into a Paper Transporter - **1 POINT IS DEDUCTED** (the Orb touched the ground).
- After every timed attempt, each of us is required to change the configuration of our Paper Transporter.
